

Dear Standbyholdet Member.

In order to be assigned a wristband, everybody must complete the mandatory Roskilde Festival security “e-learning” online course.

Please notice: The festival has informed us that earlier issued diplomas are no longer valid.

Do as follows:

1. Go to [this page](#) and select “English” from the pulldown menu labeled “Sprog”.
2. Use your People Login.
3. Select and complete the different sub courses.

Every sub course consists of information in form of text or video or both. Read and look through it. They all end in a quiz.

Pick the answers you believe are correct for each of the questions.

Once done, submit your answers to see how many correct answers you had. If you are not happy with the result, click "try again" or look through the material once more.

4. Unlike earlier years, there will be no certificate to download. Instead go to your [members card](#) and write a comment letting us know that you have completed the course.

See you soon
